Note: At the May 24, 2023 TAP Pilot Program Steering Committee meeting, it was agreed to by consensus that the local match would be distributed as a percentage of the total project miles for each implementing agency.

For example, the City of Midland's projects add to 3.34 total miles, which is 32.27% of the total 10.35 project miles, and the requested match of \$15,489.86 is the same percentage of the total required match of \$48,000.
